No Laybrook Landfill

Issue 8

12th November 2009

Next Fundraiser - 19th December

Whilst current activity surrounding the planning application is rather quiet as we await the council's next public announcement, our focus must be maintained on keeping the No Laybrook Landfill campaign alive and to continue to raise crucial funds to fight Cory's plans. Please support these efforts by joining us at Windlesham House School on 19th December for a night of great food, entertainment and company.

Tickets cost £65 each and include bubbly on arrival, 3-course dinner with wine and live music from The Hit Squad.

It promises to be a great party for the festive season!

Latest Updates

On 18th September, Cory Environmental withdrew their planning application as a result of a legal challenge regarding the way in which the application had been completed.

We knew that the withdrawal would be a temporary state of affairs and on 27th October we received an update from WSCC that Cory had resubmitted a revised application.

The council is now in the process of validating the new application after which a further period of public consultation will begin.
